① Obtain reason why there were so many "no" votes. This survey will hopefully get some answers.
② Publicize data collected
③ Move forward w/ what the data tells you

Thanks for obtaining info!!

There was little word put out to those who were new to town until a month or so before the vote. I do read the Overcast, but it's hard to figure out what's happening at what meetings. The budget is transparent for those who know where to look. Perhaps a way to introduce those who don't know would help.

Why can't polls open on Fri AM and stay open during reasonable hrs through Sun. That would give people time to vote. Many of us work 10-14 hrs/day, from before polls open until after they close.

With a declining school population, and long-term changes in how we teach children, we should not build another new school. Home school via internet will soon be the norm.

*has decreased - We think build, build, build - while
the students are doing poorly + poorly in MATH +
Reading - We don't need fancy entrances -
splendid corridors - Marble etc - just a basic
building + good teachers.*

Too much money every year already.
Find efficiency and wise spending.
Act as if the budgets are your personal
household budgets. Surprises will present
themselves.

Security of kids and seniors, and traffic safety need to be considered.

Considering all the security around schools, it seems imprudent to put a senior center attached to a school. Traffic in that area is a hazard. Creating more traffic where there is bus congestion and children walking would be irresponsible.

Jack's Chevrolet is the perfect location for a Senior Center, Community Center. Together with private investment, a joint project would be beneficial to the center of Town. Water and sewerage is already in place. Parking, which is drastically needed, would be improved. The Seniors would be in the center of Town w/ access to The Library, Post office, Shopping etc. We, as a Town must act quickly, before another Box Store Drug Store places an option on the property. Very important to plan the Center

Keep separate projects for each
1 consolidated project for 3 things is
bad for all 3

bringing in all these folks to the school
for different reasons.
I voted yes because they need to do something
for seniors + kids, but the proposal was
l rought with issues.

I think we need a new school however we need make sure all needs are met for community. We have no place here in town for swimming lesson etc. ~~the~~ Long Term building means long term goals. We need (70-80 years) to include a pool for exercise, teams, lessons. It can be paid for via fees. *for years to come.*

The school should be update and repaired
The building is fine.

The senior center does not need to be attached to
school. - Why not use the old Chevy dealership

cut the cost! should be able to find alternative
to get the needed improvements for a
fraction of the cost. How can we spend that
kind of \$\$ in these economic times?
Define where the \$\$ come from - How much is from
grants, how much is Colchester responsible for, who is
responsible for when the Budget goes up?

The plan for the school portion of the project is
to build a new school building on the site of the
old school building. The plan for the senior center
portion of the project is to build a new senior center
building on the site of the old senior center building.

What is wrong with CURRENT youth center?
NO spare classrooms for kids to go to
if they don't go to youth center? There ARE
4 schools!!! I see kids at youth center all
the time. Do NOT understand why we need
to spend more money on kids.

My biggest issue with the process was that we had nothing to compare the proposal to - should have shown what the renovations would cost to give everyone a sense of options. Instead it was more like, "do you like my idea?" I did, but what else did I have to choose from?

See if people can get the word out about the meeting on these projects. Maybe an email address for ideas to be posted.

There is a Facebook site for this discussion - a great place to post meeting times / places / ideas / thoughts / concerns. Involve the people of the town and the state will see the way you want it.

I feel both projects have merit but the cost is over the top. This is not a rich town and never will be. Try considering adding things to the project that will continue to add revenue to the town. Like a pool we can charge lessons at as well as families purchasing a family pass for the summer.

(cafe, hairdresser)

Move forward with a co-located project, but make it less expensive.

The senior Ctr. in particular had single-purpose rooms* that would not allow it to be used by the entire town and were unnecessary and

I voted for the project but now that it didn't pass here are my answers given the opposition that surfaced to the project

Yes - it seems the town is more focused on the needs of the young. It's time to "REALLY" address the needs of seniors. What happened to the findings of the original group researching a senior center? Over a year was spent & all suggestions overruled.

Repair the school, continue to do maintenance yearly instead of letting it go for so long. Make sure repairs are budgeted we can self fund repairs. Make sure Senior Center is safe until the taxpayers, town have the \$ to fix up Jack's old building.
