INDEPENDENT AUDITOR'S REPORT

To the Honorable First Selectman and
Members of the Board of Finance
Town of Colchester, Connecticut

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Colchester, Connecticut as of and for the year ended June 30, 2006, which collectively comprises the Town's basic financial statements, as listed in the table of contents. These financial statements are the responsibility of the Town of Colchester's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in "Government Auditing Standards", issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Colchester, Connecticut as of June 30, 2006, and the respective changes in financial position, and where applicable, cash flows thereof and the budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with "Government Auditing Standards," we have also issued our report dated November 2, 2006 on our consideration of the Town of Colchester, Connecticut's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or compliance. That report is an integral part of an audit performed in accordance with "Government Auditing Standards" and should be considered in assessing the results of our audit.

The management discussion and analysis on pages 3 through 13 is not a required part of the basic financial statements, but is supplementary information required by the accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The budgetary detail, combining and individual nonmajor fund statements, capital asset schedules and other schedules, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The budgetary detail, combining and individual nonmajor fund statements, capital asset schedules and other schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The prior year comparative information has been derived from the Town's 2005 financial statements and, in our report dated November 5, 2005, we expressed unqualified opinions on the respective financial statements of governmental activities, the business-type activities, each major fund and the aggregate remaining fund information.

Town of Colchester, Connecticut
Management's Discussion and Analysis
June 30, 2006

As management of the Town of Colchester, Connecticut we offer readers of the financial statements this overview and analysis of the financial performance of the Town of Colchester for the fiscal year ended June 30, 2006. Please read it in conjunction with the Town's financial statements, which immediately follow this section.

Financial Highlights

- ▶ The Town's total net assets at the close of the fiscal year were \$74,508,014, an increase of \$10,208,592 over the previous fiscal year. Total net assets of Governmental Activities at fiscal year-end were \$71,022,440 and total net assets for Business-Type Activities were \$3,485,574. Of the Town's total net assets at June 30, 2006, \$12,358,967 is unrestricted and may be used to meet the government's ongoing obligations to citizens and creditors.
- ▶ At the end of the current fiscal year, the total fund balance for the General Fund was \$6,000,743, an increase of \$450,671 from the prior fiscal year. Of the total General Fund fund balance as of June 30, 2006, \$4,283,472 represents unreserved/undesignated fund balance of the General Fund. Unreserved/undesignated General Fund fund balance represents 9.6% of total General Fund expenditures (\$44,680,522). The Town of Colchester's governmental funds reported combined ending fund balances of \$7,359,948, a decrease of \$4,871,003 from the prior fiscal year.
- ▶ The Town of Colchester's total bonded debt had a decrease of \$3,525,000 from the prior fiscal year.

Overview of the Financial Statements

This annual report consists of three parts: 1) management's discussion and analysis (this section), 2) the basic financial statements and 3) an additional section that presents combining statements for non-major governmental funds and internal service funds. The basic financial statements include two kinds of statements:

- ▶ The first two statements are government-wide financial statements that provide both long-term and short-term information about the Town's overall financial status.
- ▶ The remaining statements are fund financial statements that focus on individual parts of the Town government, reporting the Town's operations in more detail than the government-wide statements.
- ▶ The governmental funds statements tell how general government services such as police, fire and parks were financed in the short term as well as what remains for future spending.
- ▶ Proprietary funds statements offer short and long-term financial information about the activities the government operates like business, such as the water system.
- ▶ Fiduciary funds statements provide information about the financial relationships in which the Town acts solely as a trustee or agent for the benefit of those outside of the government.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

It is important to note that the Town of Colchester implemented the new reporting requirements outlined in GASB 34 effective July 1, 2002 and this is the fourth report issued under the new reporting model.

		<u>Fund Financial Statements</u>		
<u>Type of Statements</u>	<u>Government-wide Financial Statements</u>	<u>Governmental Funds</u>	<u>Proprietary Funds</u>	<u>Fiduciary Funds</u>
<i>Scope</i>	Entire Town government (except fiduciary activities)	The activities of the Town that are not proprietary or fiduciary, such as police, fire and parks.	Activities the Town operates similar to businesses; the water system.	Instances in which the Town administers resources on behalf of someone else such as student activity funds.
<i>Required financial statements</i>	<ul style="list-style-type: none"> ➤ Statement of net assets ➤ Statement of activities 	<ul style="list-style-type: none"> ➤ Balance sheet ➤ Statement of revenues, expenditures and changes in fund balances. 	<ul style="list-style-type: none"> ➤ Statement of net assets. ➤ Statement of revenues, expenses, changes in fund net assets. ➤ Statement of cash flows. 	<ul style="list-style-type: none"> ➤ Statement of fiduciary net assets. ➤ Statement of changes in fiduciary net assets.
<i>Accounting basis and measurement focus</i>	Accrual accounting and economic resources focus.	Modified accrual accounting and current financial resources focus.	Accrual accounting and economic resources focus.	Accrual accounting and economic resources focus.
<i>Type of asset/liability information</i>	All assets and liabilities, both financial and capital short-term and long-term.	Generally assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included.	All assets and liabilities, both financial and capital, and short-term and long-term.	All assets and liabilities, both financial and capital, and short-term and long-term.
<i>Type of inflow/outflow information</i>	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash are received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable.	All revenues and expenses during year, regardless of when cash is received or paid.	All additions and deductions during the year regardless of when cash is received or paid.

Figure A-1 summarizes the major features of the Town’s financial statements, including the portion of the Town government they cover and the types of information that they contain. The remainder of this overview section of the management’s discussion and analysis explains the structure and contents of each of the statements.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the Town of Colchester’s finances. The statement of net assets and the statement of activities present financial information on all of the Town’s assets, liabilities, expenses and revenues regardless of actual collections or disbursements. The statements provide both long-term and short-term information about the Town’s overall financial status.

The two government-wide statements report the Town’s net assets and how they have changed. Net assets are the difference between the Town’s assets and liabilities.

- ▶ Over time, increases or decreases in the Town’s net assets can be an indicator of whether its financial health is improving or deteriorating, respectively.
- ▶ Other non-financial indicators need to be considered such as changes in the Town’s property tax base, growth in school enrollment and the condition of the Town’s infrastructure, i.e., roads, etc.

The statement of net assets presents information on all of Colchester’s assets and liabilities with the difference reported as net assets. The statement of activities presents information showing how the Town’s net assets changed during the most recent fiscal year. All of the current year’s revenues and expenses are taken into account regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flow in some future fiscal year, such as uncollected receivables for tax revenue and earned but unpaid expenses.

The government-wide financial statements for the Town of Colchester are divided into two categories:

- ▶ Governmental activities represent most of the Town’s basic services such as fire and police protection, public works, social and human services, parks and recreation, education and general administration.
- ▶ Business-type activities represent charges for fees to customers to help cover the costs of certain services it provides. The Town’s water operation is included here.

The government-wide financial statements (statement of net assets and statement of activities) can be found on pages 15-16 of this report.

Fund Financial Statements

The fund financial statements provide more detailed information about the Town’s funds, focusing on its most significant or “major” funds and not the Town as a whole. Funds are a method of providing an accounting mechanism in order to provide accountability over resources that have been segregated for specific activities or objectives. The Town of Colchester uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Town of Colchester has three types of funds:

- ▶ **Governmental funds** include most of the Town's basic services which focus on how much cash and other financial assets that can readily be converted to cash flow in and out and the balances left at year-end that are available for spending. These statements provide a detailed short-term view that helps you determine whether there are more or fewer resources that can be spent in the near future to finance the town's programs. The government-wide statement of activities provides a broader view of the governmental activities than the governmental fund focus. The statement of net activities can be compared with the fund financial statements to better understand the long-term impact of the Town's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.
- ▶ **Proprietary funds** are generally used for reporting services for which the Town charges a fee such as the water operations for the Town. They are reported in the same way as the government-wide statements. The Town has two types of proprietary funds. One is the enterprise fund and the other is the internal service fund.
- ▶ The enterprise fund is the same as the business-type activities. Although it provides the same type of information as the government-wide financial statements, it includes more detail and has additional information reported such as cash flows.
- ▶ The internal service fund is used to report activities that provide self-insured medical services funded by other Town programs or activities. The internal service fund transactions are included in the government-wide financial statements.
- ▶ **Fiduciary funds** are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to provide services to the Town's constituency. The Town has one agency fund for student activities and one pension trust fund. The accounting for fiduciary funds is much like that used for proprietary funds.

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Government-Wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of the Town's financial status. The Town's combined assets exceeded liabilities by \$74,508,014 at the close of the recent fiscal year.

Net assets of the Town's Governmental Activities increased approximately 16.3% to \$71,022,440 and total net assets for Business-type Activities increased approximately 7.8% to \$3,485,574. The amount of \$62,149,047 (\$59,030,088 for Governmental Activities and \$3,118,959 for Business-type Activities) of combined net assets at June 30, 2006, is restricted as to the purposes they can be used for or are invested in capital assets, net of related debt (buildings, roads, bridges, and so on). The remaining balance of \$12,358,967 (\$11,992,352 for

Governmental Activities and \$366,615 for Business-type Activities) is unrestricted and may be used to meet the Town's ongoing obligations to citizens and creditors.

The most significant portion of the Town of Colchester's net assets (83.4%) reflects its investment in capital assets (i.e., land, buildings, vehicles, machinery & equipment and infrastructure). The Town uses these capital assets to provide services to citizens. Although the Town of Colchester's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since capital assets themselves may not be used to liquidate these liabilities.

Governmental Activities

Approximately 53.6% of the revenues were generated from program revenues, which include governmental revenues for Education, followed by 45.4% from property taxes, then .7% was derived from investment earnings, and finally .3% from other unrestricted grants.

Major revenue factors included the receipt of capital grant funds from the State of Connecticut School Construction progress payments for the construction of a new elementary school and expansion/renovation of the intermediate school.

The Town's current levy collected tax rate was 97.84%, a decrease of .22% over the previous year current levy collected tax rate of 98.06%.

For governmental activities, 70.1% of the Town's expenditures relate to education, 9.3% relate to general government, 4.7% relate to public safety, 6.9% relate to public works, 2.2% relate to civic and cultural, 3.7% relate to public health and welfare and the remaining 3.1% relate to interest payments on long-term debt.

Major expenditure factors include an increase in Education, mainly as a result of a significant increase in on-behalf payments to the State Teachers' Retirement fund, an approved Education budget increase of 5.76% and additional grant expenditures for the School Readiness Program awarded during the 2005-2006 fiscal year.

Business-Type Activities

Business-type activities increased the Town's net assets by \$252,493. Key elements of this increase are:

- ▶ Increase in water use fees in excess of operations and depreciation.

Financial Analysis of the Town's Fund Financial Statements

Governmental funds. The focus of the Town of Colchester's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. This information is useful in assessing the Town's financial requirements. The unreserved fund balance can serve as a useful measure of the Town's net resources available for spending at the end of the fiscal year.

As the Town completed the year, its governmental funds reported combined fund balances of \$7,359,948, a decrease from \$12,230,951 as of June 30, 2005. This decrease is mainly due to expenditures related to the construction of a new elementary school.

The general fund is the chief operating fund for the Town of Colchester. At the end of the current fiscal year, unreserved fund balance of the general fund was \$5,714,137 while total fund balance reached \$6,000,743. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents approximately 13.4% of the total general fund expenditures.

At June 30, 2006, the Town of Colchester's General Fund increased by \$450,671 over the previous year. Key factors contributing to this increase were increased Education revenues from the State of Connecticut, income from investment earnings, increased income from the conveyance tax and a lower than anticipated interest rate for general obligation bonds issued in June 2005.

Proprietary funds. The Town of Colchester's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the Water Fund at the end of the year amounted to \$366,615. The Water Fund experienced an increase in net assets of \$252,493. The explanations concerning the

finances of the Water Fund were addressed earlier in the discussion of the Town of Colchester's Business-type activities.

General Fund Budgetary Highlights

There were no additional appropriations during the fiscal year. Budget transfers approved during the year included additional funds for snow removal available from vacant positions within Public Works departments, contingency and lower debt interest payments. Available funds from a vacant position within the Fleet Maintenance department were also transferred to Capital Reserve for the purchase of a new vehicle in lieu of continuing to fund a mechanic position.

Capital Asset and Debt Administration

Capital Assets. The Town of Colchester's investment in capital assets for its governmental and business type activities as of June 30, 2006, amount to \$94,199,048 (net of accumulated depreciation). The investment in capital assets includes land, buildings, improvements, machinery and equipment, park facilities, sidewalks, roads, highways, bridges and water and sewer lines (infrastructure). The total increase in the Town of Colchester's investment in capital assets for the current fiscal year was \$12,890,572 or approximately 15.8 percent.

Major capital asset events during the current fiscal year included the following:

- ▶ There are a variety of projects with construction in progress as of the close of the fiscal year. The total construction in progress for governmental activities increased by \$14,906,152 from the prior fiscal year, mainly due to the construction of a new elementary school and expansion of the intermediate school.
- ▶ Machinery and equipment for governmental activities increased by \$799,497 mainly due to the purchase of new technology and furniture and fixtures for the elementary and intermediate schools.

Additional information on the Town of Colchester's capital assets can be found in Note 7 of this report.

Long-Term Debt. At year-end the Town of Colchester had \$32,050,000 in bonds outstanding. Of this amount \$405,000 is debt, which is funded through the Water Enterprise fund. All the bonds carry bond insurance and are backed by the full faith and credit of the Town of Colchester.

Town of Colchester Outstanding Debt

	Governmental Activities		Business-type Activities		Total	
	2006	2005	2006	2005	2006	2005
General Obligation Bonds (backed by the Town)	\$ 31,645,000	\$ 35,095,000	\$ 405,000	\$ 480,000	\$ 32,050,000	\$ 35,575,000

The Town of Colchester’s total bonded debt had a decrease of \$3,525,000 (approximately 9.9 percent) as of the end of the fiscal year.

In July 2002, Moody’s Investors Service upgraded the Town’s bond rating to A1 from A2. In addition, Fitch Ratings upgraded the rating to AA- from A+. In June 2005, Moody’s reaffirmed the A1 rating of the Town’s outstanding debt; they assigned an underlying rating of A1 to the new issue.

Additional information on the Town of Colchester’s long-term debt can be found in Note 8 of this report.

Economic Factors and Next Year’s Budgets and Rates

Although not immune from the effects of the national economic downturn, the Town of Colchester’s unemployment rate of 3.7% as of June 2006 was less than the State of Connecticut rate of 4.4% for the same time period.

Colchester continues to grow. The 2000 census revealed that the Town’s population grew by approximately one-third from 1990 to 2000. The Town was the fastest growing municipality in CT of those municipalities with a population greater than 5,000. The State of Connecticut Department of Public Health population estimate for Colchester as of July 1, 2005 was 15,389. In addition, in 2005, CNN and Money Magazine named the Town the 57th best place to live in the United States.

In January 2001, the Town adopted the 2001 Plan of Conservation and Development as a blueprint for the future of Colchester. It provides recommendations to encourage the preservation of open space and for meeting the demand for additional retail and service businesses to serve the needs of the residents of Colchester.

An integral part of the plan regarding commercial development in Colchester has included the revitalization of its downtown area. This revitalization included building additions and renovations, new commercial construction, street improvements, and changes in traffic circulation.

The school population continues to increase with the increased housing activity and population growth. A new elementary school and expanded intermediate school were opened for the 2006-2007 school year, significantly impacting the Board of Education budget.

Requests for Information

This financial report is designed to provide a general overview of the Town of Colchester's finances for all those with an interest in the government's finances. Questions concerning any of the information should be addressed in writing to the Chief Financial Officer, Town of Colchester, 127 Norwich Avenue, Suite 203, Colchester, CT 06415.

Other assets	47,578	-	989	48,567
	<u>\$ 14,210,333</u>	<u>\$ 9,699,959</u>	<u>\$ 3,404,391</u>	<u>\$ 27,314,683</u>
Liabilities				
Accounts payable and accrued liabilities	\$ 1,863,278	\$ 10,872,417	\$ 361,970	\$ 13,097,665
Deferred revenue	6,323,143	-	477,373	6,800,516
Advance tax collections	23,169	-	-	23,169
Unearned revenue	-	-	33,385	33,385
Total liabilities	<u>8,209,590</u>	<u>10,872,417</u>	<u>872,728</u>	<u>19,954,735</u>
Fund balances (deficits)				
Reserved for:				
Encumbrances	239,028	2,593,200	70,138	2,902,366
Loans	-	-	5,800	5,800
Inventory	47,578	-	989	48,567
Unreserved:				
Designated for subsequent years budget	1,430,665	-	-	1,430,665
Designated for specific projects	-	-	506,871	506,871
Unreserved/undesignated, reported in:				
General fund	4,283,472	-	-	4,283,472
Special revenue funds	-	-	1,947,865	1,947,865
Capital projects funds	-	(3,765,658)	-	(3,765,658)
Total fund balances (deficits)	<u>6,000,743</u>	<u>(1,172,458)</u>	<u>2,531,663</u>	<u>7,359,948</u>
Total liabilities and fund balances	<u>\$ 14,210,333</u>	<u>\$ 9,699,959</u>	<u>\$ 3,404,391</u>	

Amounts reported for governmental activities in the statement of net assets are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	90,675,088
Other long-term assets are available to pay for current-period expenditures and, therefore, are deferred in the funds.	6,800,516
Internal service funds are used by management to charge the costs of health insurance premiums to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net assets.	295,256
Accrued interest payable	(198,368)
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.	(33,910,000)

Net assets of governmental activities

\$ 71,022,440

TOWN OF COLCHESTER, CONNECTICUT

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
For the Year Ended June 30, 2006**

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances – total governmental funds	\$ (4,871,003)
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	12,890,240
Net changes in revenues and receivables in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(1,306,044)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	3,450,000
Some expenditures reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	(1,181)
The net revenue of certain activities of internal service funds is reported with governmental activities.	<u>(205,913)</u>
Change in net assets of governmental activities	<u><u>\$ 9,956,099</u></u>

The notes to the financial statements are an integral part of this statement.

TOWN OF COLCHESTER, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS

June 30, 2006

Note 1. Summary of Significant Accounting Policies

Reporting entity

The Town of Colchester, Connecticut (the "Town") was incorporated as a town in 1698. The Town operates under a Board of Selectmen, Board of Finance and Town Meeting form of government and provides a full range of services including public safety, roads, sanitation, health, social services, culture and recreation, education, planning, zoning, and general administrative services to its residents. The accompanying financial statements conform to accounting principles generally accepted in the United States of America as applicable to governments.

Accounting principles generally accepted in the United States of America require that the reporting entity include (1) the primary government, (2) organizations for which the primary government is financially accountable and (3) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The criteria provided in Governmental Accounting Standards Board Codification Section 2100 have been considered and there are no agencies or entities which should be presented with the Town.

Government-wide fund financial statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the non-fiduciary activities of the Town. For the most part, the effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

TOWN OF COLCHESTER, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, *Continued* June 30, 2006

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Agency funds have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year when levied for. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, landfill closure costs, and claims and judgments, are recorded only when payment is due (matured).

Property taxes, when levied for, intergovernmental revenues when the eligibility requirements are met, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period, if available. All other revenue items are considered to be measurable only when cash is received by the Town.

The Town reports the following major governmental funds.

The General Fund is the Town's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Bonded Projects Fund accounts for financial resources to be used for the acquisition or construction of major capital facilities or improvements, which are financed by the issuance of general obligation bonds.

The Town reports the following major proprietary funds:

The Water fund accounts for the operations of the water department.

TOWN OF COLCHESTER, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, *Continued* June 30, 2006

Additionally, the Town reports the following fund types:

The Internal service fund is used to account for the Town and Board of Education's medical self-insurance fund.

The Pension Trust Fund is used to account for the accumulation of resources to be used for retirement benefits.

Private-purpose trust fund is used to account for resources legally held in trust for the benefit of individuals, private organizations or other governments.

Agency funds account for monies held as a custodian for outside groups and agencies.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989 generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for business-type activities and enterprise fund financial statements, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first, then unrestricted resources as they are needed.

Pension plan accounting

Pension Trust Fund:

The Pension Trust Fund is reported on the accrual basis of accounting. Employer contributions to the plan are recognized when due and the Town has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan. Administrative costs are financed through investment earnings. Stand-alone statements are not issued.

Accounting estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent

TOWN OF COLCHESTER, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2006

assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenses and expenditures during the reporting period. Actual results could differ from those estimates.

Property taxes

Property taxes are assessed as of October 1, levied on the following July 1, and billed and generally due in two installments, July 1 and the following January 1. Liens are filed on June 1 following the due date.

Cash equivalents

The Town considers all highly liquid investments and those investments with a maturity of three months or less when purchased to be cash equivalents.

Allowances for doubtful accounts

Accounts and notes receivable for the primary government are reported net of allowance for doubtful accounts of approximately \$238,000. The allowance for doubtful accounts represents those accounts which are deemed uncollectible based upon collection history and analysis of creditor's ability to pay.

Investments

Investments are stated at fair value based upon quoted market prices. All of the Town's investments are recorded in the Pension Trust Fund. Fixed income funds are reported at fair value based on the unit prices quoted by the fund representing the fair value of the underlying investment. The Connecticut State Treasurer's Short-Term Investment Fund is an investment pool managed by the State of Connecticut Office of the State Treasurer. Investments must be made in instruments authorized by Connecticut General Statutes 3-27c through 3-27e. Investment guidelines are adopted by the State Treasurer. The fair value of the position in the pool is the same as the value of the pool shares.

The balance of the pooled fixed income investments were invested in a pool similar to a 2a-7. These investments are stated at amortized cost. The fair value of the position in the pool is the same as the value of the pool shares.

Inventories

Inventories are stated at the lower of cost or market determined on the first-in, first-out basis for governmental fund types.

TOWN OF COLCHESTER, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued
June 30, 2006

The enterprise fund records inventory at the lower of cost or market using the first-in, first-out method.

Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the governmental and business-type columns in the government-wide and proprietary fund financial statements. Capital assets are defined by the Town as assets with an initial, individual cost of more than \$1,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at fair value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets are capitalized as projects are constructed.

Capital assets of the Town are depreciated using the straight-line method over the following estimated useful lives:

Capital Assets	Years
Buildings	40-50
Building improvements	20
Distribution and collection systems	50-100
Public domain infrastructure	50
System infrastructure	30
Machinery and equipment	5-20

In the governmental fund financial statements, capital outlay (assets) is reported as expenditures and no depreciation expense is recorded.

Compensated absences

Town and Board of Education employees accumulate vacation and sick leave hours for subsequent use or for payment upon termination or retirement. Vacation and sick leave expenses to be paid in future periods are accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only for amounts expected to be paid (matured), for example, as a result of employee resignations and retirements.

TOWN OF COLCHESTER, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, *Continued* June 30, 2006

Long-term obligations

In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Encumbrances

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation, is utilized in the governmental funds. Encumbrances outstanding at year-end are reported as reservations of fund balance as they do not constitute either expenditures or liabilities.

Pension accounting

Pension Trust Fund

Employee contributions are recognized in the period in which the contributions are due. Employer contributions to the plan are recognized when due and the Town has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Governmental Funds

Expenditures are recognized when they are paid or are expected to be paid with current available resources.

Funding Policy

The Town funds the contributions to its defined benefit pension plan based on an actuarial valuation, which amount is included in the budget.

TOWN OF COLCHESTER, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued
June 30, 2006

Fund equity and net assets

In the government-wide and proprietary fund financial statements, net assets are classified in the following categories:

Invested in Capital Assets, Net of Related Debt – This category groups all capital assets, including infrastructure, into one component of net assets. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduces this category.

Unrestricted Net Assets – This category represents the net assets of the Town, which are not restricted for any project or other purpose by third parties.

In the fund financial statements, fund balances of governmental funds are classified in three separate categories. The three categories, and their general meanings, are as follows:

Reserved fund balance - indicates that portion of fund equity that is not available for appropriation or which has been legally segregated for specific purposes.

Unreserved/designated fund balance - indicates that portion of fund equity for which the Town has made tentative plans that are subject to change.

Unreserved/undesignated fund balance - indicates that portion of fund equity which is available for appropriation and expenditure in future periods, or if a deficit, for which future funding will be required.

Note 2. Reconciliation of Government-Wide and Fund Financial Statements

Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

The governmental fund balance sheet includes a reconciliation between fund balance – total governmental funds, and net assets – governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that “long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$33,910,000 difference are as follows:

Bonds payable	\$ 31,645,000
Landfill closure costs	270,000
Compensated absences	<u>1,995,000</u>
Net adjustment to reduce fund balance – total governmental funds to arrive at net assets – governmental activities	<u><u>\$ 33,910,000</u></u>

TOWN OF COLCHESTER, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued
June 30, 2006

Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds, and changes in net assets of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.” The details of this \$12,890,240 difference are as follows:

Capital outlay	\$ 16,056,215
Depreciation expense	<u>(3,165,975)</u>
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net assets of governmental activities	<u>\$ 12,890,240</u>

Another element of that reconciliation states that “the issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.” The details of this \$3,450,000 difference are as follows:

Principal repayments:	
General obligation debt	<u>\$ 3,450,000</u>
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net assets of governmental activities	<u>\$ 3,450,000</u>

Note 3. Budgets and Budgetary Accounting

The Town's general budget policies are as follows:

General Fund

The Chief Financial Officer compiles preliminary budgets for all departments and agencies, with the exception of the Board of Education, for presentation by the First Selectman to the Board of

TOWN OF COLCHESTER, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued
June 30, 2006

Selectmen. After making such alterations or changes as it deems necessary, the Board of Selectmen presents the compiled budget to the Board of Finance. The Board of Education submits its budget directly to the Board of Finance.

The Board of Finance may make such revisions to the Selectmen's and Education budget estimates as it deems desirable, holds one or more public hearings and presents a proposed budget to the Annual Town Meeting which then goes to an automatic referendum.

The legal budget of the Town is a departmental budget.

Subject to certain restrictions, additional appropriations may be approved by the Board of Finance upon recommendations of the Board of Selectmen.

Classification of certain revenues and expenditures under accounting principles generally accepted in the United States of America ("GAAP") differ from classifications used for budgetary purposes.

A reconciliation of General Fund revenues as presented in accordance with GAAP and revenues presented on the budgetary basis is as follows:

Revenues and transfers, budgetary basis	\$ 43,244,095
Prior year encumbrances cancelled	(37,902)
On-behalf payments paid directly by the State of Connecticut Teachers' Retirement System	<u>1,925,000</u>
Revenues and transfers, GAAP basis	<u><u>\$ 45,131,193</u></u>

A reconciliation of expenditures of the General Fund presented in accordance with GAAP and expenditures and encumbrances presented on the budgetary basis is as follows:

Expenditures, transfers and encumbrances budgetary basis	\$ 42,734,467
On-behalf payments paid directly by the State of Connecticut Teachers' Retirement System	1,925,000
Encumbrances:	
June 30, 2005	226,728
June 30, 2006	<u>(205,673)</u>
Expenditures and transfers, GAAP basis	<u><u>\$ 44,680,522</u></u>

TOWN OF COLCHESTER, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, *Continued* June 30, 2006

Special revenue funds

The Town does not have legally adopted annual budgets for its special revenue funds. Budgets for the various special revenue funds which are utilized to account for specific grant programs are established in accordance with the requirements of the grantor agencies. Such budgets are nonlapsing and may comprise more than one fiscal year.

Capital project funds

Legal authorization for expenditures of the capital project funds is provided by the related bond ordinances. Capital appropriations do not lapse until completion of the applicable projects.

Note 4. Cash, Cash Equivalents and Investments

Deposits: The Town has a policy that deposits can include demand and savings accounts and certificates of deposit with Connecticut banks. The Town's custodial credit risk policy follows the State of Connecticut requirements that each depository maintain segregated collateral in an amount equal to a defined percentage of its public deposits based upon the bank's risk based capital ratio.

Investments: The Town and the Pension Trust Fund do not have a credit risk policy for investments, however, it is their practice to follow State statutes. The Connecticut General Statutes (Section 7-400) permit municipalities to invest in: (1) obligations of the United States and its agencies (2) highly rated obligations of any state of the United States or of any political subdivision, authority or agency thereof; and (3) shares or other interests in custodial arrangements or pools maintaining constant net asset values and in highly rated no-load open end money market mutual funds (with constant or fluctuating net asset values) whose portfolios are limited to obligations of the United States and its agencies, and repurchase agreements fully collateralized by such obligations. The Statutes (Sections 3-24f and 3-27f) also provide for investment in shares of the Connecticut Short Term Investment Fund and the Tax Exempt Proceeds Fund. Other provisions of the Statutes cover specific municipal pension funds with particular investment authority and do not specify permitted investments. Therefore, investment of such funds is generally controlled by the laws applicable to fiduciaries (i.e., prudent person rule) and the provisions of the applicable plan. The Town and Pension Trust Fund do not have a custodial credit risk policy.

Interest rate risk: The Town does not have a policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, its practice is to structure the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity, and investing operating funds primarily in shorter-term securities, money market mutual funds, or similar investment pools.

TOWN OF COLCHESTER, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued
June 30, 2006

Concentrations: The Town, including the Pension Trust Fund, does not have a policy that limits the amounts invested in any one issuer. However, its practice is to maintain a diversified portfolio to minimize the risk of loss resulting from over-concentration of assets in a specific issuer.

Custodial credit risk:

Deposits: This is the risk that, in the event of failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. As of June 30, 2006, \$11,027,713 of the Town's bank balance of \$11,439,625 was uninsured and uncollateralized.

Investments: This is the risk that in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

Cash and cash equivalents of the Town consist of the following at June 30, 2006:

Cash and Cash Equivalents	
Deposits with financial institutions	\$ 11,064,504
State of Connecticut Short-Term Investment fund	205,163
MBIA-Class Account	101,362
Investments	
Pension Trust Funds:	
Mututal Funds	6,731
Total cash, cash equivalents, and investments	<u><u>\$ 11,377,760</u></u>

Cash and cash equivalents are classified in the accompanying financial statements as follows:

Statement of Net Assets	
Cash and cash equivalents	<u>\$ 11,152,929</u>
Fiduciary Funds	
Cash and cash equivalents	218,100
Investments	6,731
	<u>224,831</u>
	<u><u>\$ 11,377,760</u></u>

TOWN OF COLCHESTER, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued
June 30, 2006

Interest rate risk: This is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. Information about the exposure of the Town's debt type investments to this risk using the segmented time distribution model is as follows:

	Fair Value	Investment Maturities (in Years) <u>Less Than 1 Year</u>
Pooled Income Funds	\$ 306,525	\$ 306,525

Credit Risk: Generally, credit risk is the risk that an issuer of a debt type investment will not fulfill its obligation to the holder of the investment. This is measured by assignment of a rating by a nationally recognized rating organization. U.S. government securities or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk exposure. Presented below is the minimum rating as required for each debt type investment.

	Average Rating	Pooled Income Fund
State Short-Term Investment Fund	AAA	\$ 205,163
MBIA, Inc.	AA	101,362
		<u>\$ 306,525</u>

TOWN OF COLCHESTER, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued
June 30, 2006

Note 5. Unearned Revenue/Deferred Revenue

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds and governmental activities also defer revenue in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of unearned revenue and deferred revenue reported in the governmental funds and governmental activities were as follows:

	Deferred Revenues	Unearned Revenues
General Fund:		
Taxes and accrued interest on delinquent property taxes	\$ 768,766	\$ -
School construction grants	5,554,377	-
Nonmajor Funds:		
Assessments receivable	450,150	-
Grants and other	27,223	33,385
Total	\$ 6,800,516	\$ 33,385

Note 6. Interfund Transfers

Interfund transfers during the year ended June 30, 2006 were as follows:

	Transfers In	Transfers Out
General Fund	\$ 2,244	\$ 262,615
Bonded Projects	73,000	-
Nonmajor Governmental Funds	213,375	26,004
Total	\$ 288,619	\$ 288,619

Transfers are used to account for financing by the General Fund of programs accounted for in other funds in accordance with budgetary authorizations.

Business-type activities:					
Bonds payable:					
General obligation bonds	\$ 480,000	\$ -	\$ 75,000	\$ 405,000	\$ 70,000

All bonds are general obligations of the town and are secured by the taxing authority raising powers of the Town.

TOWN OF COLCHESTER, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued
June 30, 2006

General obligation bonds outstanding as of June 30, 2006 consisted of the following:

	<u>Outstanding Amount</u>
General obligation bonds payable:	
\$10,800,000 bond, issue of 2005 due 2025, annual principal payments range from \$645,000 to \$540,000 plus interest due semi-annually at 3.25% to 4.5%	\$ 10,800,000
\$9,460,000 bond, issue of 2001 due 2021, annual principal payments range from \$390,000 to \$670,000, plus interest due semiannually at 4.0% to 5.5%	6,150,000
\$4,500,000 bond, issue of 1987 due 2008, annual principal payments of \$215,000 plus interest due semiannually at 6.7% to 7.2%	430,000
\$4,500,000 bond, issue of 1988 due 2009, annual principal payments of \$235,000 plus interest due semiannually at 7.2% to 7.3%	470,000
\$5,180,000 bond, issue of 2002 due 2012, annual principal payments range from \$595,000 to \$465,000 plus interest due semiannually at 2.0% to 4.5%	2,945,000
\$730,000 bond, issue of 2002 due 2013, annual principal payments range from \$95,000 to \$110,000 plus interest due semiannually at 3.0% to 4.0%	405,000
\$4,000,000 bond, issue of 1991 due 2012, annual principal payments range from \$215,000 to \$130,000 plus interest due semiannually at 5.6% to 6.5%	1,205,000

Enterprise fund general obligation bonds:

\$640,000 bond issue of October 2002, annual principal payments ranging from \$25,000 to \$70,000 plus interest due semiannually at 3.00% to 4.00%

\$ 405,000

TOWN OF COLCHESTER, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued
June 30, 2006

The annual debt service requirements of the bonds payable in the enterprise fund are as follows:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2007	\$ 70,000	\$ 14,840	\$ 84,840
2008	70,000	12,565	82,565
2009	70,000	10,115	80,115
2010	70,000	7,490	77,490
2011	50,000	4,900	54,900
2012	50,000	3,000	53,000
2013	25,000	1,000	26,000
Total	<u>\$ 405,000</u>	<u>\$ 53,910</u>	<u>\$ 458,910</u>

School bond reimbursements

The State of Connecticut reimburses the Town for eligible school bond principal and interest costs. The amount of such reimbursement for the year ended June 30, 2006 was approximately \$1,198,000. Additional payments for principal and interest aggregating approximately \$6,350,000 are expected to be received through the bonds' maturity dates.

Debt limitation

The Town's statement of debt limitation under Connecticut General Statutes, Section 7-434(b) as of June 30, 2006, is as follows:

Total tax collections (including interest and lien fees) for the year ended June 30, 2006	\$ 26,840,530
Reimbursement for revenue loss:	
Tax relief for elderly	59,310
Base	<u>\$ 26,899,840</u>

TOWN OF COLCHESTER, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued
June 30, 2006

The Connecticut General Statutes provides that total authorized debt of the Town shall not exceed seven times the above base cash receipts of \$26,899,840 nor shall the total authorized particular purpose debt exceed the individual debt limitations reflected in the table below:

	General Purpose	Schools	Sewers	Urban Renewal	Pension Deficit
Debt limitation:					
2-1/4 times base	\$60,524,640	\$ -	\$ -	\$ -	\$ -
4-1/2 times base	-	121,049,280	-	-	-
3-3/4 times base	-	-	100,874,400	-	-
3-1/4 times base	-	-	-	87,424,480	-

Net indebtedness	5,236,333	50,293,090	418,000	-	-
Debt limitation in excess of outstanding and authorized debt	\$55,288,307	\$ 70,756,190	\$ 100,456,400	\$ 87,424,480	\$ 80,699,520

⁽¹⁾ Water bonds of \$405,000 are excluded from this calculation pursuant to Connecticut General Statutes.

Note 9. Contingent Liabilities and Commitments

Lawsuits

The Town is currently involved in several litigation matters. In the opinion of the Town's management and legal counsel, the final settlement of these matters will not have a material adverse effect on the financial condition of the Town.

Note 10. Pension Fund

Connecticut State Teachers' Retirement System

The faculty and professional personnel of the Board of Education participate in a contributory defined benefit plan, established under Chapter 167a of the Connecticut General Statutes, which is administered by the Connecticut State Teachers' Retirement Board. A teacher is eligible to receive normal retirement benefits if he or she has attained age sixty and has accumulated twenty

TOWN OF COLCHESTER, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued **June 30, 2006**

years of credited service in the public schools of Connecticut or has attained any age and has accumulated thirty-five years of credited service, at least twenty-five of which are service in the public schools of Connecticut. The financial statements of the Plan are available from the Connecticut State Teachers' Retirement Board, 21 Grand Street, Hartford, CT 06105.

Certain part-time and full-time certified teachers are eligible to participate in the plan and are required to contribute 7.25% of their annual earnings to the plan. The Town does not, and is not legally responsible to, contribute to the plan.

The State of Connecticut contributes based on actuarially determined amounts. The funding level was determined based on an actuarial valuation of the plan as a whole, which does not provide actuarial information on an individual city/town basis.

In addition, the Town has recognized revenues and expenditures for on-behalf payments for pension contributions paid directly to the Connecticut State Teachers' Retirement System by the State of Connecticut. Such on-behalf payments were approximately \$1,925,000 for the year ended June 30, 2006.

Police Department Defined Benefit Plan

The Town contributes to a defined benefit pension plan - the Town of Colchester Police Retirement Plan (the Plan), a single employer plan, effective July 1, 2005. The Plan is presented in the accompanying financial statements as a pension trust fund. The pension plan obligation is immaterial; therefore, no actuarial or other information is disclosed. A stand-alone report is not available for this plan.

Plan Description

The Plan is a single-employer defined benefit pension plan that covers any regular, full-time, investigatory and uniformed member of the Town's Police Department who is duly sworn and vested with police powers, excluding any such member excluded from the Bargaining Unit by the Municipal Employees Relations Act ("MERA"). The Plan provides retirement, disability and death benefits to plan members and their beneficiaries.

Contributions

Each participant shall contribute 6% of their compensation to the Plan for each week of employment. Additionally, the Town is required to make periodic contributions on the basis of actuarial calculations.

The Town does not maintain a defined benefit pension plan for other employees.

TOWN OF COLCHESTER, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued
June 30, 2006

Defined Contribution Retirement Savings Plan

Town employees are eligible to participate in a defined contribution retirement savings plan administered by the Town. In a defined contribution plan, benefits depend solely on amounts contributed to the Plan plus investment earnings. Employer contributions are based on union contracts. Employees may make additional contributions subject to IRS regulations. The Plan is not reported as a fiduciary fund by the Town as it does not meet the reporting criterion.

Note 11. Risk Management

The Town is exposed to various risks of loss related to public official liability, police professional liability, theft or impairment of assets, errors and omissions, health of and/or injury to employees, natural disasters, and owners and contractors protective liability. The Town generally obtains commercial insurance for these risks, but has chosen to retain the risk for employee health and medical claims.

The Medical Self-Insurance Fund is funded by monthly contributions from all funds incurring payroll charges. Anthem Blue Cross/Blue Shield, administrator of the claims process, aids the Town in calculating "premium" rates per contract. Under the Town's current policy, the Medical Self-Insurance Fund covers all employee claims up to \$100,000 per claim with an aggregate stop loss of 125% of expected claims paid which was approximately \$4,986,000 for the year ended June 30, 2006.

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Claims liabilities are calculated considering the effects of inflation, recent claim settlement trends including frequency, and amount of payouts and other economic and social factors.

Changes in the balance of claim liabilities are as follows:

	Claims Payable July 1	Claims and Changes in Estimates	Claims Paid	Claims Payable June 30
2005-2006	\$ 287,921	\$ 4,219,520	\$ 4,118,298	\$ 389,143
2004-2005	\$ 308,639	\$ 3,551,409	\$ 3,572,127	\$ 287,921

The Town purchases commercial insurance for all other risks of loss, including blanket and umbrella policies. Coverage has not been materially reduced, nor have settled claims exceeded coverage in any of the past three years.

Note 12. Landfill Postclosure Care Cost

The Town's municipal solid waste landfill stopped accepting waste in 1994. State and Federal laws and regulations require the Town to perform certain maintenance and monitoring functions

TOWN OF COLCHESTER, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued
June 30, 2006

at the site for thirty years after closure. The remaining postclosure costs are estimated to be \$270,000 (\$15,000 per year for 18 years). Actual cost may be higher due to inflation, changes in technology, or changes in regulations. The responsibility for postclosure monitoring will remain with the Town.

Note 13. Fund Deficits

The following funds had fund deficits as of June 30, 2006:

Bonded Projects Fund	\$ 1,172,458
Miscellaneous Grant Fund	\$ 29,651

The fund deficits are expected to be repaid with future revenues, future bonding or transfers.

Note 14. Pronouncements Issued, Not Yet Effective

The Governmental Accounting Standards Board (GASB) has issued several pronouncements prior to June 30, 2006 that have effective dates that may impact future financial presentations.

Management has not currently determined what, if any, impact implementation of the following statements may have on the financial statements:

- ▶ GASB Statement No. 43, "Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans," issued April 2004, will be effective for the Town beginning with its year ended June 30, 2007. This Statement establishes uniform financial reporting standards for OPEB (other postemployment benefits) and supersedes the interim guidance included in Statement No. 26, "Financial Reporting for Postemployment Healthcare Plans Administered by Defined Benefit Pension Plans."
- ▶ GASB Statement No. 45, "Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions," issued June 2004, will be effective for the Town beginning with its year ending June 30, 2008. This Statement establishes standards for the measurement, recognition and display of other postemployment benefits, expenses and related liabilities or assets, note disclosures and, if applicable, required supplementary information in the financial reports.
- ▶ Statement No. 48, "Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues," issued September 2006, is effective for periods beginning after December 15, 2006. This Statement establishes accounting and financial reporting standards for transactions in which a government receives, or is entitled to, resources in exchange for future cash flows generated by collecting specific receivables or specific future revenues. It also provides disclosure requirements for a government that pledges or commits future cash flows from a specific revenue source. In addition, this Statement establishes accounting and financial reporting standards for intra-entity of assets and future revenues.
