Kick-off Event at Esker Point Beach! May 31st 10am-2pm

Teams will receive their passports, learn other details about the RACE, and Project Oceanology Marine Science Educators will be on hand to challenge RACE participants to a coastal science scavenger hunt! Teams get a list of coastal environments to explore, questions to answer and marine animals to find. Learn about the unique habitats along the CT shoreline that you could see and experience from a small boat or from a local park. Project O staff members will verify each team's items and discuss what each item is and its purpose. Enjoy Small Boat Day by trying out a kayak, sailboat, paddleboard, or sliding seat shell and getting information from CT DEEP about safe boating and keeping our waters clean. All skill levels are welcome and life jackets are provided.

For more information contact Groton Parks and Recreation at 860-536-5680 or www.grotonrec.com/smallboatday.asp.
