

Environmental Stewardship: Our Role in Sustaining the Environment

A Free Workshop

**Wednesday, March 24 • 6:00-9:00pm
Colchester Town Hall**

Presented by:

Colchester Parks & Recreation • Colchester Land Trust
Community Wildlife Habitat Committee • Colchester Garden Club
funded by a grant from the Colchester Learning Foundation

This educational and interactive session on the basics of environmental stewardship will focus on three core areas:

- providing leadership for sustainable communities
- promoting sustainable landscapes
- and fostering the next generation of stewards.

The seminar has been developed by the National Recreation and Park Association as a tool for training citizens and professionals about the basics of environmental stewardship.

Refreshments will be served.
In the spirit of the event, attendees are encouraged to bring their own reusable cups/water bottles.

Please pre-register through Colchester Parks & Recreation:
