Town of Colchester FY 2020 – 2021 Proposed Budget

Department: Fire Department/Emergency Medical Services

Mission

To protect and preserve lives and property of the people in the Town of Colchester through medical, fire, and rescue intervention.

Description

The Colchester Fire Department protects lives and property from fire and hazardous incident damage and provides timely emergency medical services in the Town of Colchester and other neighboring municipalities. The fire department incorporates up-to-date and efficient fire prevention, fire suppression, hazardous incident mitigation and emergency medical technologies into its procedures, equipment and methods.

Company One (HQ) is located at 52 Old Hartford Road. Company Two (sub-station) is located at 424 Westchester Road, Rt. 149.

This department's budget reflects the operational needs of these facilities and personnel but also the Town of Colchester's participation with a 911 PSAP Regional Dispatch Service.

Town of Colchester FY 2020 - 2021 Proposed Budget

Department: Emergency Management

Mission

The mission of the Colchester Office of Emergency Management is to ensure that the Town of Colchester is prepared for, able to respond to and successfully recover from any emergency or natural/manmade disaster that affects the Town of Colchester.

Description

Emergency Management incorporates 'All Hazards Planning' when developing emergency plans for the town and its residents. All Hazards refers to all types of disaster events:

- Weather: Hurricane, Tornado, Extreme Heat & Cold, Snow, Flooding, Drought, etc
- Transportation Accidents:, Aviation, Highway
- Large Scale Destruction/Displacement of residents due to a fire, chemical release, etc.
- Terrorism
- Wide spread long-term public health emergencies i.e. COVID-19 Pandemic
- Any other circumstance deemed necessary by the Incident Commander and/or the First Selectman

The Town of Colchester encompasses 49 square miles in upper New London County. Our population is approaching 17,000 yearly residents.

Route 2 divides the town in half, from east to west. The town is prone to all types of weather emergencies and transportation accidents throughout the year.

Emergency Management works closely with the Colchester Police & Fire Departments, and other town departments during a disaster to provide them with resources at their request.

Emergency Management provides emergency notification to the public on disaster information and updates them as needed. This is accomplished via news media, social media and reverse notifications via telephone, cellular and electronic devices.

If needed, Emergency Management is ready to respond with disaster sheltering including pre-storm and post storm services. Our department is equipped to open temporary centers for charging electronic equipment and other various equipment.

Emergency Management meets throughout the year with town and agency leaders to ensure emergency plans and resources are current to meet our goals and responsibilities. In addition, we maintain partnerships with Business, Non-Government, State and Federal agencies to ensure our residents are provided with all applicable opportunities after a disaster.

Description:

The Colchester Transfer Station provides a disposal option to individually-contracted curbside collection services as well as disposal options not typically included the curbside services. The Transfer Station also acts as the first Debris stockpile/disposal site for the Town and residents following extreme weather events. The Division also funds the Household Hazardous Waste Collection events for Colchester residents in coordination with SCRRRA annually.

A responsibility of the staff is to reduce disposal costs by monitoring market trends and attempt to gain the lowest disposal cost and highest credits for all disposed products and materials. Work with the Regional Recycling Association to increase recycling percentages and to increase services offered the residents of Colchester.

Staff:

Transfer Station Operator – 2 day (shared FTE with Highway Division)

Transfer Station Equipment Operator – 2 day (shared FTE with Fleet Division)

2019 - 2020 Accomplishments

- Adjust operation to comply with COVID-19 Social Distancing protocols. Maintained operation of Transfer Station throughout emergency declaration
- Due to Trade issues at national level, recyclables are no longer a marketable commodity and hence vast amounts are being landfilled or incinerated throughout the country. As such, disposal of single stream recycling products are no longer free and the Town is presently being charged a \$60.00/ton fee by processors. No change in rates were proposed during the FY 19-20.
- Survey conducted on incoming users of the Station regarding the compliance with the State's recycling laws if there was a fee associated with the disposal of Recyclable materials. The overall results indicated that 33% of the residents using the transfer station would not comply with the separation of Recyclables from MSW materials and were adverse to fees being charged for Recyclable materials.
- 255 Colchester households served at the Colchester Household Hazardous Waste Collection event.

Department: Youth & Social Services

Mission

The Department of Youth & Social Services provides programs and services designed to improve the quality of life for youth, families and individuals so that they may reach their full potential as healthy members of society.

Description

The Youth Service Bureau (YSB) provides programs to school aged youth during and after school. Some of the programs we offer include drop-in Youth Center, support groups, community service programs, leadership training, social and life skill development, parenting classes, substance abuse education, youth employment programs and a Juvenile Review Board. Throughout the year (summer and school vacations) we offer a variety of cultural and recreational activities that provide our young people with opportunities to participate in safe and supervised outings, try out new experiences, and meet new people. Many of our programs are offered after-school, but we also provide programs during school on topics such as: managing stress, divorce support group and friendship skills.

Our YSB programs are based on the *Positive Youth Development* model, which assumes that when young people develop a sense of attachment and commitment to their families, schools, peers and communities they will be less likely to engage in unhealthy behaviors. The philosophy supporting a positive youth development model places value on young people regardless of their situations and emphasizes their strengths and potential.

Our Social Service programs are designed to improve the well-being of individuals, families, and the community. We assist individuals and families in meeting their basic needs while maintaining the dignity and privacy of the client.
