Southeast Resiliency Project – Phase 4

Dear Neighbor,

At Eversource, we know that bringing you safe, reliable energy is one of our important jobs. That's why we're pleased to share updated details of a natural gas resiliency project now taking place in your community. This is part of an Eversource program that is strengthening the gas delivery system in Connecticut.

What You Can Expect

The enclosed fact sheet and map provide more information about the details of our work. Please review it carefully as it contains specific information about work schedules, traffic patterns and how you can verify the identity of an Eversource employee or contractor.

As we perform our work, we continue following the guidance issued by federal, state and regulatory officials concerning certain job tasks during the coronavirus health crisis. You can learn more about the precautions Eversource and its contractors are taking to protect the safety of customers and employees at [Eversource.com](https://www.eversource.com) and clicking *About*.

Our work for this project will take place along the following sections of state roads:

- Route 85 (From Route 616 to Route 16)
- Route 16 (From Route 85 to Route 149)
- Route 149 (From Route 16 to Pickerel Dr)

Working to Serve You Better

We are committed to being good neighbors and performing our work with the utmost respect for you and your property. As construction professionals, we also know that living within a work zone can be challenging and we will do our best to minimize any disruption.

Staying connected to you is also an important part of our work. If you have any questions or need any additional information regarding this resiliency work, please contact us. We thank you for your patience and cooperation as we work together to complete this important gas system project.

Sincerely,

Collin Nilsen
