**To:** Robert Tarlov <BOFChair@colchesterct.gov>  
**Subject:** irrigation in budget?

Rob,

Hope all on BoF are well. Functioning in covid-19 is a historic moment. I can not imagine the tour of duty faced by Board members now. Thanks to all.

Back in the day, Parents were lobbying for irrigation at Park and Recs. At that time, there were discussions for irrigation costs to be funded 100% by parent usage fees. That issue was the resultant of foot traffic on public lands exceeding self sustainability. The optimal system of field rotations conflicted with those wanting to maximize usage. The fields could not naturally replenish themselves.

Have any motions been approved to publicly fund irrigation at the fields?

If so, I'll read up on the situation.

Thanks and be well,

James McNair

Hi James,

There have been no motions.

I think the next step is to see what Mary will be including in her budget presentation on April 6.

Rob
