Subject: Finance Director Meeting 4/18/24

Bernie,

If the BOS special meeting of 4/18/24 was planned in advance to make sure all BOS are available during the day - 2:00pm - which I'm sure took some arranging, WHY are citizens only finding out a mere 24 hours beforehand. While you just squeak by on FOI meeting notice requirements, this appears to be very disingenuous!
Why is this meeting of great importance in the middle of the workday?
Maybe you don't want citizens to attend??
WHY no citizens comments?
Shouldn't citizens be able to speak to this matter of great importance facing our town?
You have spoken on the record numerous times on this issue both as a citizen and FS. So, why are you now, as FS, silencing citizens' voices?

This is NOT the transparency you promised during your campaign!

Thank you,

Deanna Bouchard
