

COVID TESTING AT RECPLEX

- We are proposing that a COVID 19 testing site be authorized as stated in the contract.
- Testing would be open to the public Monday- Saturday, 8am-4pm.
- The long parking lot with the cul-de-sac will be used.
- A kiosk would be set up in the parking lot, near the pavilion. It will take up about 1.2 parking spaces.
- The kiosk will use electricity provided by the outlets at the pavilion.
- Testing staff will have access to the restrooms near the concession stand.
- Public Works will be responsible for plowing the parking lot for public access and unlocking the gate in the morning. Testing staff will lock the gate when they leave, unless there are cars in the parking lot.
- Testing employees will stay in the kiosk, patrons will park at the RecPlex and walk to the kiosk to be tested then return to their vehicle.
- Spring sports are expected to begin April 1st, depending on the weather. Due to the timing, we do not anticipate overcrowding or parking problems.
