

Tax Collector's Report for the Month of – **DECEMBER 2022**

Collection Rate: 67.52%

Current Taxes Collected: \$10,192,148.56

Delinquent Taxes Collected: \$29,132.70

Interest Collected: \$10,073.81

TOTAL COLLECTED IN NOVEMBER: \$10,231,355.07

Notes:

- At this time all bills have been mailed – IF someone has not gotten a bill they should call the office so that we can provide them with one.
- Real Estate & Motor Vehicle Supplemental bills became due January 1 and will become delinquent after February 1, 2023
- Our collection rate is trending close to where we were last December (FY 2021-22 65.97%) – we will have a better picture after January 2023
- The office has started the budget process for 2023-24 FY. Last year I projected an additional \$75K split between Delinquency & Interest collections. That was with the understanding that we were having a Tax Sale in the fall. This coming year we will not be having another sale so my income collections in these two categories will be lowered.
