DECLARATION OF STATE OF EMERGENCY FOR THE TOWN OF COLCHESTER, CONNECTICUT

WHEREAS, on March 10, 2020, the Governor of the State of Connecticut declared a public health emergency and civil preparedness emergency for the State of Connecticut, pursuant to Connecticut General Statutes Sections 19a-131 and 28-9, in response to the global pandemic of COVID-19 disease associated with a novel coronavirus that is currently affecting multiple countries and states; and

WHEREAS, on March 13, 2020, the President of the United States declared a national emergency to combat the coronavirus that is currently infecting the population of the United States; and

WHEREAS, on July 27, 2021, as a result of the increased transmissibility of the now-dominant Delta variant of SARS-COV-2 (the "Delta variant") and the resulting increase in COVID-19 infections, the U.S. Centers for Disease Control and Prevention (CDC) issued guidance recommending that all people, including those who are vaccinated, wear masks or face coverings indoors in areas of substantial or high COVID-19 transmission; and

WHEREAS, according to the CDC, as a result of increased infection rates and the higher transmissibility of the Delta variant, all eight of Connecticut's counties are considered areas of substantial, or high, transmission; and

WHEREAS, due to the significant adverse impact on public health of COVID-19, and the acceleration of the spread of the disease, the First Selectman must take action for the purpose of ensuring civil preparedness and mitigating the adverse effects of this emergency situation upon the residents of Colchester; and

WHEREAS, the First Selectman has determined that in order to slow the spread of the Delta variant, protect our residents and those visiting, and conducting business within our communities, it is right and proper and consistent with good preventive public health practices to follow the current CDC guidelines on wearing masks or face coverings in indoor settings regardless of vaccination status; and

WHEREAS, on August 5, 2021, the Governor of the State of Connecticut issued his Executive Order 13A, granting municipalities the authority to take necessary steps to halt the spread of COVID-19, particularly its high infectious Delta variant, specifically authorizing municipal orders requiring masks or face coverings in indoor settings regardless of vaccination status.

NOW, THEREFORE, IT IS HEREBY PROCLAIMED that, pursuant to the powers and duties granted in the Connecticut General Statutes and pursuant to the authority and powers granted
